

Cedar Lake Watershed Commission

Minutes

11-27-2017

Tom Brelsford called the meeting to order at 7:03.

No audience of citizens.

Old Business-

Mission statement: Ted contacted Lauren about approval of mission statement. Waiting on approval from board of selectmen.

Water quality testing: Town Sanitarian forgot to add additional testing. Tom contacted the lab to obtain quotes for cost for additional test for nitrate, nitrite, phosphate and phosphorous.

Weed control: We have not received any new information from Divers Cove. We don't have the funding to pay for weed removal at all three areas but are going to send the request for a total of \$19,760 to the town. The \$19,760 would pay for hydro raking at all 3 areas, dumpsters to remove the weeds, and the equipment setup. We also discussed the chemical treatment but that would cost about \$28,000 and require state permits which were denied in the past due to protected fish and plant species in the lake.

No new information on the cedar lake display. Could be pitched to the boy scouts as an eagle scout project.

No new business

The December meeting has been suspended and the next meeting is scheduled for January 29th at 7PM
