

TOWN OF CHESTER

WATER POLLUTION CONTROL AUTHORITY

The following definition for Food Processing Wastewaters shall be adopted in Chester's WPCA Regulations, Article 1-2 Definitions section:

“Food Processing Wastewaters” means wastewaters generated by the manufacturing and storage of brewed beverages for human consumption as, described in industry group number that begin with 312120 Breweries of the Standard Industrial Classification Manual limited to the wastewater generated by an establishment engaged in brewing beer, ale, malt liquor and nonalcoholic beer associated with storage, processing, packaging and disposal of raw materials, and their products and by-products; cleaning and maintenance of areas associated with storage, processing, packaging and disposal of raw materials, products and by-products; and composting operations.”

Edward Ward

WPCA Chairman
