

Chester Inland Wetlands & Watercourses Agency  
Site Walk of Available Members  
September 22, 2018  
Page 1 of 1

As this was a Site Walk, no formal meeting was held or called to order.

Members present were: Al Bisacky (Chairman), Bob Blair, Kim Senay and Roger Nemergut, P.E., representing the property owner, Sandra Freudenstein.

At approximately 8:30 A.M. those in attendance gathered at 39 Wig Hill Road. Mr. Nemergut, representing the Applicant, provided an overview of the wetlands crossing for proposed construction of a driveway. Agency members accompanied Mr. Nemergut on a site walk of the area of the property that would be impacted by the proposed activities.

The property and other related details were discussed by all present. Those present first viewed the site of the proposed wetlands crossing on Lot 39. Pink flags had been posted, indicating the beginning and end of the proposed culvert location.

Review of the existing right-of-way on Lot 37 was also conducted, this location was more difficult to locate. It was identified as being approximately 15 to 20 feet north of the previously identified wetlands' delineation flag Number 7.

No actions were taken.

Members who were unable to participate in the site walk at that time were offered, with the owner's permission, the opportunity to visit the site independently prior to the next regularly scheduled Agency meeting.

The group disbanded following completion of their review.

Respectfully submitted,

*Bettie Perreault*

Clerk
