

Announcement from Chester's Harbor Management Commission

The new docks on Chester Creek at Marker 37 are scheduled to open this weekend. There will be dock staff monitoring it and helping people tie off. Anyone coming in has to check in and talk to the marina- hail them on Channel 9.

This will be a new activity at the mouth of Chester Creek this year and may take a minute to work out the navigational kinks- both those vessels entering and exiting the Creek from the marinas and those vessels just trying to tie up to the new docks to dine at Marker 37. Please use caution and be patient, after all we are all out there to have a great time.

Also, effective as of July 1st, boaters going to Marker 37 are charged a \$10.00 for docking. Please remember to hail them on Channel 9 for dockage and mooring usage and directions. They need to be able to coordinate and cannot have anyone docking or tying up without our acknowledgment.

Boat safely and have a great time on the river!

Carolyn Kane, Chairman
Chester Harbor Management Commission
